ON THE FLY

ELECTRIC BOAT LOADER BY WESTCAN

Make a splash with our all-new boat loader! Built to integrate seamlessly with our over canopy rack and our truck rack system, getting out on the water has never been easier.

Scan the QR code to see the boat loader in action!

On the Fly Boat Loader installed on a Westcan Over Canopy Rack

FEATURES & BENEFITS

Spend less time on loading and unloading your boat, and more time on what matters—having fun! Our new boat loader boasts the following features:

- 425 lb max load rating
- Lightweight aluminum construction
- Includes electrical hook-up and rope for standard install
- Wires directly to vehicle battery, circuit breaker included
- Quickly load or unload your boat in just a few minutes
- Compatible with boats 10'-14' long and up to 70" wide, including Jon Boats
- Maximum mounting height of 90" from ground to top edge of racking

To order your boat loader, please use the part number and description below for reference when speaking to your local Westcan distributor.

DESCRIPTION	PART #
Standard Boat Loader Kit	5001001
Truck Rack Extender 75-5/8" Wide	4001702

On the Fly Boat Loader installed on a Westcan Cab Guard, Rail Caps, Rear Rack and Truck Rack Extenders

CAB GUARDS

Your Truck, Your Way!

Westcan's aluminum cab guards are constructed using premium anodized extruded aluminum and feature install kits for both standard and cross over tool box configurations that require no drilling to install on most trucks. The fully welded construction of these cab guards ensures you will get years of reliable service.

LED cab guards are available with red markers and brake lights, as well as white backup lights.

All Westcan cab guards have a top load rating for up to 400 lbs of evenly distributed cargo.

Required install kits are sold separately. Please see our list of [Cab Guard Install Kits](#) on page 8.

Features & Benefits of Cab Guards

- 1½" premium anodized aluminum tubing
- Easy to install thanks to our no-drill installation kit for vehicles with stake pocket holes
- Available in many different styles including light mount, full bar, or mesh
- Complete with hardware and instructions
- Installed with stainless steel and non-corrosive hardware

Did you know?

All Westcan truck products come complete with non-corrosive stainless steel hardware to prevent unsightly rust with age!

Strength and Style – Black Cab Guards

Westcan's black aluminum truck cab guards achieve an ideal harmony between style and practicality. All Westcan's aluminum cab guards are constructed using premium extruded aluminum and feature install kits for both standard and cross over tool box configurations. No drilling to install on most trucks! The fully welded construction of these cab guards ensures you'll get years of reliable service.

The black powder-coated finish not only adds a modern touch, but also works as a shield against weather conditions. Elevate your truck with a blend of durability and elegance, and **STAND OUT** confidently on the road.

Make the decision to upgrade today!

Features & Benefits of Black Cab Guards

- Installed with stainless steel and non-corrosive hardware
- Premium Polyurethane semi gloss black powder coat
- Resistant to UV damage
- Maximum durability
- **NO RUST EVER!**

Install Rail Caps Without Drilling!

Our innovative no-drill installation sets our rail caps apart from the competition! These rails are anodized aluminum with smooth aluminum caps or black aluminum. Both are fully welded. They will look great for years to come!

Features & Benefits of Rail Caps

- Useful for protecting box caps from dings and dents
- 1½" premium anodized or black aluminum tubing
- Built to allow the installation and use of stowable rear racks
- Provides a variety of additional cargo tie down points

REAR RACKS & INSTALL KITS

Ready When You Are!

Get even more out of your truck's package by adding a rear rack! The stow-and-go functionality of the rack means you can store or retrieve your rear rack in minutes, thanks to an included clip-and-lock system with tool-free deployment. When not in use, the rear rack locks up against your cab guard so it's there when you need it.

Features & Benefits of Rear Racks

- Stowable thanks to a clip-and-lock design with tool-free deployment. Lock included!
- Rated for 250 lbs evenly distributed top load

Did you know?

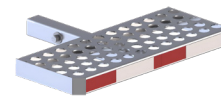

Westcan's 70" wide cab guard extender can be installed on your cab guard and rear rack as shown here! This is great for when you need to carry wider loads than the base rack will allow. Also, Westcan's 75 - 5/8" wide cab guard extender works with the Electric Boat Loader.

Did you know?

Once you've upfitted your truck with the Westcan rack of your choice, you can accessorize further. Options include beacon light mounts, shovel and rake holders, and more! Use our beacon light mounts to provide flexible mounting locations on cab guards. Additionally, our receiver steps make it safer and simpler to access your truck rack! These steps are available in straight, 4" drop or fold-up. Whatever your requirement, we have the right step for the job!

All receiver steps have a maximum load rating of 275 lbs and require a 2" receiver for installation.

OVER CANOPY RACKS

Features & Benefits of OCRs

- Stainless Steel hardware
- All aluminum construction
- Maximum clearance of 34" from the top of the truck box measured to the underside of the crossbars
- Maximum stationary weight rating of 800 lbs and in-motion weight rating of 600 lbs and off-road weight rating of 400 lbs
- Compact OCR (2003000) crossbars measure 68" from ear to ear and full-size OCR (2002000) crossbars measure 75" from ear to ear
- Fully adjustable with no-drill installation on vehicles with stake pocket holes
- Adjustable to fit both high rise and cab-high canopies
- **Toyota Tacoma is the ONLY truck that a canopy must be used. Canopies are optional for all other trucks**
- When used with a canopy with a skirt, the skirt must be trimmed at baseplates

MEASURING YOUR TRUCK'S BOX LENGTH

To determine your box length, measure from the inner edge of the bulkhead to the inner edge of the tailgate, as shown in the diagram (left).

BOX SIZE	APPROX. MEASUREMENT
Extra Short	5'3" - 5'5"
Short	6'1" - 6'6"
Long	8'0" - 8'2"

The table provides approximate measurements, but yours may fall outside of these. Choose the closest size, or call us for assistance.
